

Brand Delivery Overview

It's been an incredible month working together on this visual identity project. 🎉

Seeing Maintain Technology take shape and evolve into a strong, well-defined brand has been exciting, and I'm truly grateful for the collaboration, insights, and passion you brought to the process.

This deck is here to guide you through all the final deliverables so you have everything you need to implement and grow the brand with confidence.

Final Deliverables & Access

All files are available at **Gdrive**

01 Visual Identity Folder

Logo

Primary and secondary logos in PNG, SVG, and favicon formats.

Typography

Essential brand fonts ready for installation.

Iconography

A set of brand icons available in PNG format.

Photography

Approved brand images for marketing and communication.

02 Internal Materials

Virtual Meeting Backgrounds

Branded backgrounds designed for Microsoft Teams.

03 Social Media Folder

Profile Photo

Optimized profile images for platforms such as Facebook, LinkedIn, and Instagram.

LinkedIn Cover Photos

High-resolution banners for LinkedIn.

04 Canva Assets Folder

Canva Assets

Pre-formatted assets imported into a Canva brand kit for quick use.

Canva Editable Templates

A shared Canva folder containing editable templates for social media, one-pagers, and letterheads.

The brand kit is also accessible here for seamless editing.

Access the templates **here**.

05 Brand Guidelines

This document outlines who we are, what we stand for, how we communicate, and how we visually represent our brand across all platforms.

It serves as a go-to resource for creating consistent and cohesive brand materials that uphold the integrity and spirit of the brand.

A downloadable PDF is included in the folder.

You can also view the guidelines online **here**.

File Format Guide:

- PNG – A high-quality image format with transparency support, ideal for digital use.
- SVG – A vector-based format that maintains quality at any size, perfect for logos and icons.
- EPS – A professional vector format used for high-resolution print and design work.
- PDF – A universally accessible file format for sharing the official brand guidelines.
- Favicon – Mini icon for browser tabs and bookmarks.

I'd love to hear your thoughts on our work together! 🤝

If you're open to sharing a short testimonial about your experience, it would mean a lot and help others see the value of strong brand identity.

→ Project Feedback Form

Thank you in advance!

Thank You 🙌 Excited for What's Ahead!

The journey doesn't end here — the brand launch is just getting started.

I'm still actively working on your design requests and are here to support any additional needs as you prepare to go live. If you have new initiatives, refinements, or ideas in the pipeline, I'm just a message away.

Thank you again for the trust — I'm looking forward to seeing your brand come to life.
